Caltrans Snow Removal Guidelines

REDDING -- The California Department of Transportation (Caltrans) reminds business owners, residents and contractors that it is a violation of the California Vehicle Code Section VC23112 to move snow onto the state right of way. This includes any state highway and sidewalks and roadway shoulders adjacent to the highway.

Not only is this type of activity in violation of the vehicle code, but can cause potentially hazardous situations for both pedestrians and motorists and hinders timely snow removal operations.

For more information please contact the Public Information Office at 225-3260.

Caltrans wishes every one a happy and safe New Year. Please drive safely and remember to "Slow for the Cone Zone."
